The Master, owner of the vessel or service provider must, without fail, prior to the vessel's arrival in port, submit a completed form to the port stating the volume and type of waste brought on land. Failure to do so can lead to the vessel being reported to the Environment Agency of Iceland. A vessel requesting that Port of Akureyri accept delivery of waste must send notification to such effect with at least 48 hours' notice prior to arrival in port.

All vessels to which the provisions of Article 11c of Act No. 33/2004 on Marine and Coastal Antipollution Measures apply shall pay as follows for waste disposal:

7. Disposal dues: If a vessel seeks the services of a recognised entity for the disposal of waste, such vessel may receive a refund of the imposed disposal fee according to item e, provided that a receipt from the receiving entity together with correct information on the volume disposed of is submitted. The condition for the refund of costs is that the receipt of the receiving entity is submitted to Port of Akureyri within 48 hours of the vessel's departure.
8. According to Article 11 of Act No. 1200/2014, the Environment Agency of Iceland can grant vessels on scheduled routes, which regularly dock in the ports and provide evidence of delivery of waste and payment of fees in each port on the route in question, an exemption from the delivery of waste. A Master or owner of a vessel who has been granted an exemption from the Environment Agency of Iceland as regards the disposal of waste or submission of notifications must present a valid confirmation to such effect.
9. Vessels that are exempt from payment obligations pursuant to item 1 of the second paragraph of Article 17 and Article 11© of the Harbour Act, must pay for the harbour's acceptance and disposal of general waste. The port's minimum fee for the receipt of waste is **ISK 12,573** per cubic metre, and the minimum fee to be paid is for one cubic metre. Port authorities may place a lien on such certificates until charges are paid. Delays and damages resulting from such procedures are entirely the responsibility of the debtor of overdue debts.
14. Payment of overdue debts must be completed before ship's departure from port, and a captain cannot expect service from district magistrate or directorate of customs unless he/she can provide a certificate from Port Director that he/she has paid all due debts to the port.
15. Wharfage dues are paid for all goods that are offloaded, delivered, or transported, one way or other, inside port boundaries. Wharfage dues are determined before ship's departure unless otherwise agreed. Wharfage dues
