

# GAC Brazil Logistics Services

A comprehensive range of services for all your  
logistics needs

GAC Brazil links South American exporters to markets  
around the world and provides foreign importers with  
access to the region's growing commercial trade.

Delivering your strategy.

## GAC Brazil offers professional, expert solutions to diverse sectors catering to outsized cargo, heavy lifts, large-scale and complex logistics.

Established in 2006, GAC Brazil's head office is situated in São Paulo with branches at key locations throughout the country.

### Customs clearance

We liaise with customs, local government agencies and authorities like Anvisa, ANP and MAPA for customs clearance related to dry and liquid cargo and specific programmes like Drawback and Ex-tarfiario.

GAC has in-depth knowledge of trade regulations at all levels to deliver a smooth service.

### Sea freight

GAC Brazil's operating system is connected to INTRA (for exports), an electronic transaction platform that links freight shipping lines with clients. This allows for fast, secure transfer of bookings and security instructions through EDI (electronic data interface).

We also provide SOLAS weighing and filing regulation assistance. Our services include packing, crating, lashing, fumigation,

surveys, consolidation and triangular operations.

### Air freight

As an IATA member with all major airlines, we provide single or multiple consolidation shipments to ensure your cargo reaches its final destination in the shortest possible time with optimal routing and cost-efficiency.

We offer a range of standard, express/priority and charter services for oversized or dangerous goods as well as perishable and dry cargoes.

### Project cargo

GAC Brazil delivers professional, expert solutions that cater to outsized cargo, heavy lifts, large-scale, sensitive and complex projects.

Our services include part and full time charter, port and quality surveys, structural and geometric studies and inspections, hiring and management of cranes, forklifts and specialised lifting equipment.

### Comprehensive support

- Customs clearance
- Freight services
- Land transportation
- Ship spares logistics
- Project logistics
- Energy logistics
- Warehousing and distribution

## Drive towards increased value

### Industries

We deliver unique, specialized logistics services to the automotive, energy, technology, pharmaceutical, heavy industry, marine, food & beverage and petrochemical industries.

### Sectors

We have a strong track-record of providing flexible solutions, tailor-made to the needs of a diverse range of sectors including project cargo, LCL & FCL freight and dry & liquid cargo.

# Delivering the efficiency you need in a competitive world
