

# GAC Panama

## Your local agent with global coverage

GAC Panama provides a suite of shipping services, including traditional ship agency, specialised husbandry, ship spares delivery, crew matters and repairs to vessels calling at Panamanian ports or transiting the Panama Canal.

With the opening of the new locks in 2016, and the larger vessels now able to transit the Panama Canal, GAC Panama is well-equipped to provide a comprehensive level of service, backed by our global network and years of experience.

Delivering your strategy.

# Delivering customised solutions to fit your business strategy

## Proactive team

The ever-changing nature of the Panama Canal requires a fully-staffed, 24/7 operation. With offices at both ends of the Canal, GAC can provide you with timely solutions and on the ground knowledge of the operations area as well as any local requirements that you may need. We are available to you in the early planning stages to clear any issues you may have. With GAC, your needs are tended to safely and professionally every time.

## Predicting your needs

Our management team is experienced working in all aspects of the Panama Canal. This unique blend of expertise from former vessel operators, shipping line country

managers and freight forwarders is the reason that GAC Panama can support your requirements and find the solution to any problem. As your strategic partner, our primary objective is to predict and prevent any problems from arising.

## Plan, plan, plan

Our most important role is to provide an interpretation of the Panama Canal's daily operation to give you the best foreseeable support at the Panama Canal. From early planning stages to critical arrival information, and from securing a transit slot to auditing to avoid unnecessary charges – GAC Panama will be there.
