

GAC Malaysia

Specialist in the Northern Gateway

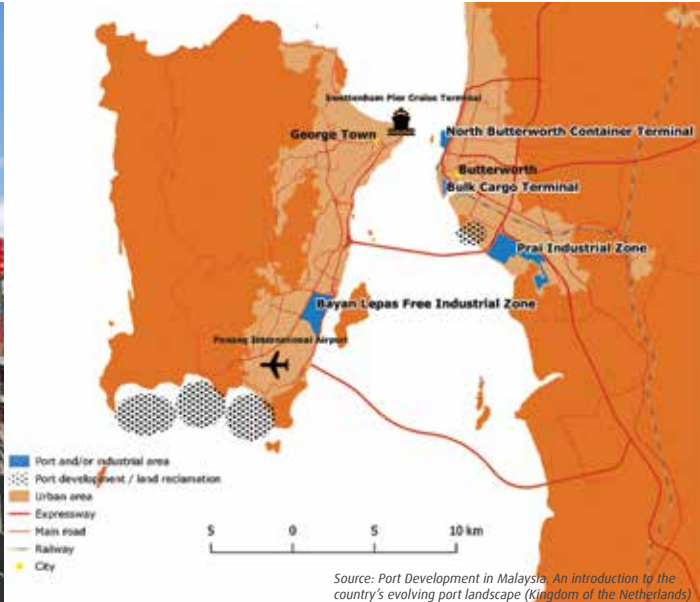

Located in the northern part of Malaysia, Penang has a relatively well-developed transport infrastructure. It is well-connected by land, air and sea; in terms of cargo handling, the Penang International Airport is Malaysia's second busiest, while the Port of Penang is the main harbour and transshipment hub within northern Malaysia. Besides being the third busiest seaport, Port of Penang is also the country's busiest cruise port. The cruise terminal, known as Swettenham pier, is located on Penang island, in the heart of Georgetown.

GAC Malaysia offers a comprehensive suite of services that is designed to meet all your cargo needs.

Delivering your strategy.

Your one-stop services provider in the northern gateway

Penang airport

The airport handles approximately 130,000 tonnes of cargo annually and is capable of handling aircraft like the 747F. The airlines it serves include Cathay Pacific Cargo, China Airlines Cargo, Korean Air Cargo, Eva Air Cargo and MASKargo.

Port of Penang

The port serves as the primary gateway to the Northern region of Malaysia and Southern Thailand. It handles approximately 1.52 million TEUs of cargo annually. There are five cargo and container terminals in Butterworth and Perai, including:

- North Butterworth Container Terminal – Containerised cargo.

- Butterworth Wharves – Break-bulk cargo
- Vegetable Oil Pier – Liquid bulk cargo
- Perai Bulk Cargo Terminal – Dry bulk cargo
- Perai Wharves – Dry bulk cargo
