

GAC Malaysia Project Logistics

**The muscle to move any project cargo locally
and globally**

Big projects mean the transportation of big, heavy and sometimes out-of-gauge parts.

Moving such shipments takes skill, experience and the right equipment – GAC Malaysia provides the muscle to shoulder any project cargo movement from source to destination.

Delivering your strategy.

Whatever your project needs, from single domestic delivery to complex multi-shipments, let GAC Malaysia do the heavy lifting for you.

With GAC Group's global network and solid track record in developing and executing complex project logistics solutions, we are the partner with whom you can entrust your load.

From moving massive silos to delicate turbine engines, GAC Malaysia has the skills and strength that guarantee safe and timely delivery locally and worldwide.

Total logistics capabilities

At GAC Malaysia, we focus on delivering logistics solutions across the region with accuracy and flexibility. We can manage projects of any size from single domestic delivery to complex, multi-shipment and multi-modal projects.

Our track record

We have tailored project logistics services for a variety of clients in different industries. The following are some of the project cargoes

that we handled:

- 138 risers with a total volume of more than 5,500 cbm from Port Klang Free Zone to Geoje Island, Korea
- 18 silo pieces and 120 packages of duct work cargo weighing more than 430 tonnes loaded onto a 240' barge at the dry bulk terminal at Tanjung Langsat port bound for Cirebon in West Java, Indonesia
- Whole ship crane with 41m long boom and lower slewing column height of 4.3m, door-to-door from San Diego terminal to Singapore with transshipment loaded onto barge bound for Sibu and Miri, Malaysia
- Pile caps with a total volume of 3,600cbm from Lumut to Mundra, India
- 1.8km post-trenching work at both Sungai Johor and Selat Mendana crossing, and further backfilling at Pulau Juling
- One unit of helicopter from Labuan for transshipment through Port Klang to Europe, and project cargoes for several military projects

End-to-end efficiency

All operations are planned and executed with strong focus on minimising risks and costs, optimising resources and meeting deadlines.

Highest performance, safety and compliance standards in everything we do

Ethics and compliance

GAC Group is committed to quality, safety, compliance, honesty and transparency in everything we do.

Our operations are in full compliance with the Group's strict compliance and ethics policies – underpinned by the GAC Code of Ethics.

The Group's global reach provides security through one company control, ensuring strict quality, HSSE and compliance implementation throughout the project life.

Commitment, flexibility and experience are central to the GAC approach to every project, whether it is a single shipment or a global Engineering / Procurement / Contracting (EPC) contract.

Proven track record in handling all types of project cargoes

Our complete solutions include:

- Surveys & feasibility studies
- Multi-modal transport
- Full / part charter party
- Towage & barge operations
- Special equipment transport
- Operations supervision
- Stevedoring & terminal services
- Forward planning & cargo handling method statements
- Technical consulting
- Track & trace

About the GAC Group

GAC Group is a global provider of integrated shipping, logistics and marine services. Emphasising world-class performance, a long-term approach, innovation, ethics and a strong human touch, GAC delivers a flexible and value-adding portfolio to help customers achieve their strategic goals. Established since 1956, the privately-owned group employs over 8,000 people in more than 300 offices worldwide.

The GAC Malaysia advantage

- Established infrastructure and resources to support operations on a local, regional or global scale
- Complete solutions backed by ship agency, logistics and offshore support capabilities
- Advanced IT system provides customers with visibility of their cargo at every step of the supply chain
- Dedicated project teams with extensive technical and operational skills
- Round-the-clock operations
