

# GAC Malaysia Oil & Gas Services

**Specialist support services in Kemaman,  
Terengganu**

Kemaman Supply Base (KSB) is the biggest petroleum supply base in Peninsular Malaysia. It is an integrated one-stop centre facility in the region for oil majors and support companies.

**Delivering your strategy.**

# Integrated logistics services to meet your Oil & Gas needs

## Kemaman Supply Base (KSB)

The whole area of KSB, of approximately 180 hectares, is uniquely licensed by Royal Customs of Malaysia under the Warehousing and Manufacturing scheme. As a result, taxes and duties for imported oil field equipment entering KSB and subsequently going to offshore locations are deferred and exempted.

## GAC Kemaman office

GAC Malaysia's office is strategically located in the Kemaman Supply Base (KSB). It is an all-weather port with an 8-metre draft, which allows supply vessels to call at, 24/7. Our Office is in the main administration building which is steps away from the supporting government agencies. The main wharf, customs control gate and KSB facility yard are all in the proximity of our office.

## Our services

Our team specialises in the storage, movement and heavy lifting of rig/vessel equipment. Our key services include:

- Rig lay-up: Warm and cold stack
- Agency services: Vessel clearance, crew changes, meet & greet, work permit application
- Husbandry services: Ship spares logistics, bunkering (MGO & HFO), scheduled waste removal, fresh water supply
- Freight/Logistics: Import/Export, storage, customs brokerage
- Marine services: Chartering of OSV, AHTS, AWB, LCT, supplies and crew boats
- Project and out of gauge (OOG) solutions for cargo handling and shipping
- Industrial packing & lashing
- Crane / Forklifts / Rigger services / Operation crew
