

GAC Philippines Project Logistics

**The muscle to move any project cargo locally
and globally**

Big projects mean the transportation of big, heavy and sometimes out-of-gauge parts. Moving such shipments takes skill, experience and the right equipment.

With GAC Group's global network and solid track record in developing and executing complex project logistics solutions, you can count on GAC Philippines to provide the muscle to shoulder any project cargo movement from source to destination.

Delivering your strategy.

Whatever your project needs, from single domestic delivery to complex multi-shipments, let GAC Philippines do the heavy lifting for you.

From moving massive silos to delicate turbine engines, GAC Philippines has the skills and strength to take care of all your project needs.

Total logistics capabilities

At GAC Philippines, we focus on delivering logistics solutions across the region with accuracy and flexibility. We can manage projects of any size from single domestic delivery to complex, multi-shipment and multi-modal projects.

With a dedicated team assigned to each account, we assure you of meticulous handling at every step of the process and prompt attention to all your needs.

Our track record

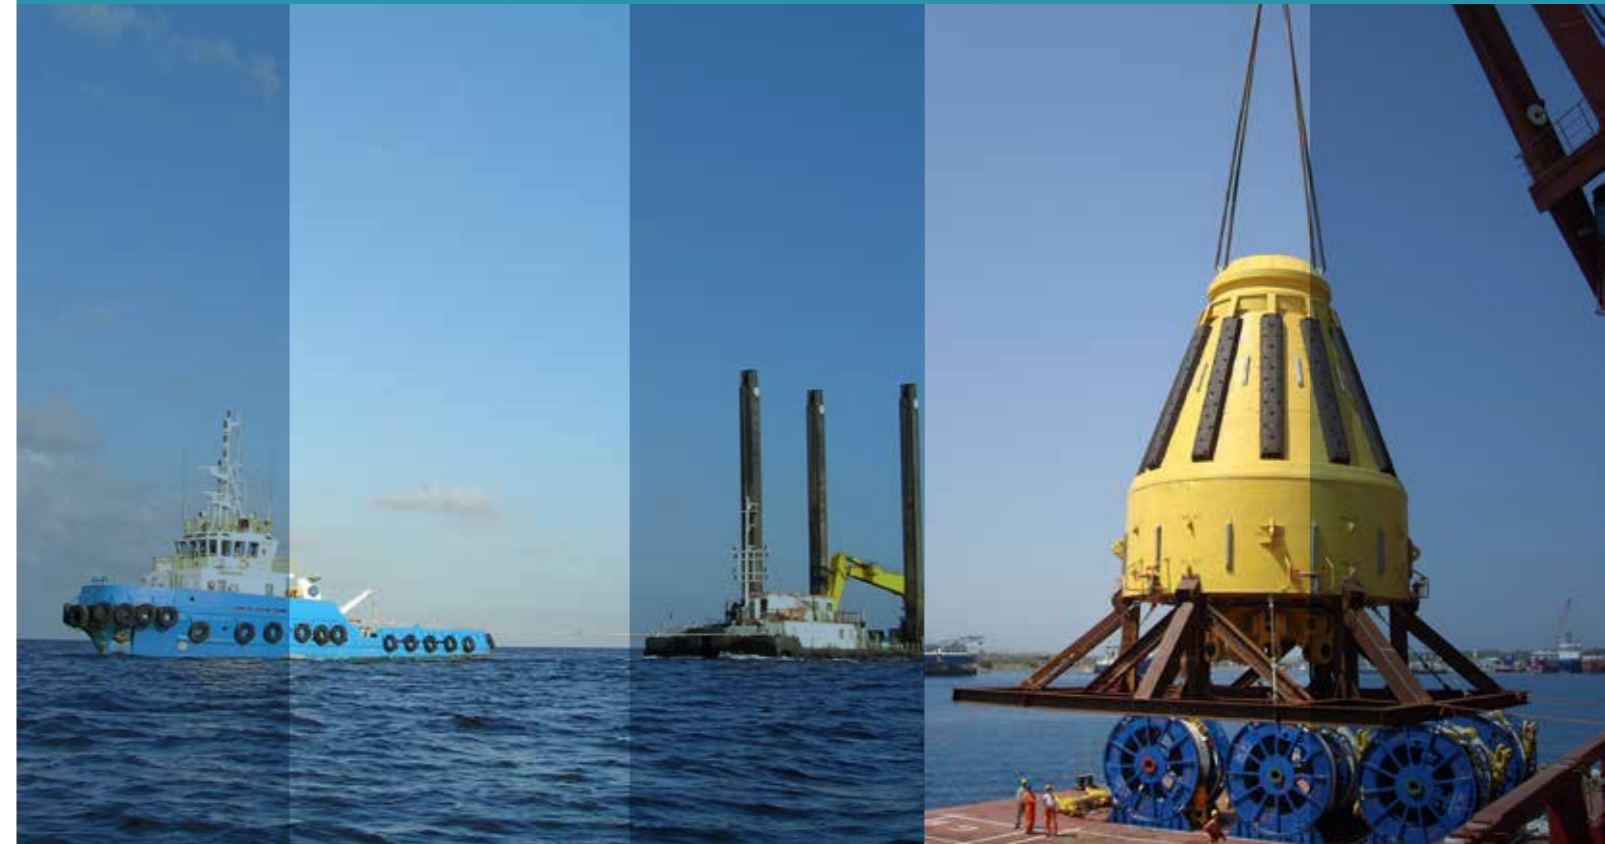

We have tailored project logistics services for a variety of clients in different industries. The following are some of the project cargoes that we handled:

- Loading of 2 rigs with a total weight of 21,358 tonnes in Subic Bay
- Made two voyages of a heavylift vessel carrying a total of 6 pieces of caisson from Singapore to Manila with each unit of caisson weighing 15 tonnes.
- Delivery of 6 units of power plant modules weighing a total of 1,468,325kg from Bauan Batangas Port to Thailand.
- 30,547 mt of steel billets from Mundra, India to Manila Port.

End-to-end efficiency

All operations are planned and executed with strong focus on minimising risks and costs, optimising resources and meeting deadlines.
