

# GAC Sri Lanka

## Ship fumigation & sanitisation services

During a time when health, cleanliness and hygiene are at the top of everyone's mind, GAC Sri Lanka has pioneered disinfection and sanitisation services to vessels calling any Sri Lankan port or plying off port limits. We are committed to providing these services under strict health and safety guidelines while adhering to all local and international standards.

Delivering your strategy.

# Count on GAC for best-in-class services for your vessel needs

## What we offer

- Launch service to facilitate the process covering all 4 commercial ports in Sri Lanka - Colombo, Galle, Hambantota and Trincomalee.
- Staff available 24/7 to execute disinfection or sanitisation operation
- All documentation and coordination with authorities for approvals.
- Use of approved disinfectants, professional tools & equipment.
- Technically qualified and experienced teams to attend to the entire operation
- Provision of full PPE to all team members involved in the operation.

Extensive knowledge and experience ensure we provide high quality and compliant services for all your operational needs.
