

GAC Sri Lanka

Versatile and proven tug operations

With 20 years of experience and a team of master mariners, GAC Sri Lanka provides tug services in compliance with the highest standards.

Delivering your strategy.

Tug services at the highest standard

Your tug partner of choice

Tugs are well suited for a variety of tasks ranging from general towage to serving as monitor or guard vessels. Our fleet includes modern tugs ranging from 1,000 to 5,000 BHP.

With more than two decades of operations in Sri Lanka and offices in Colombo, Galle, Hambantota and Trincomalee, GAC Sri Lanka is a partner you can trust to give your complex offshore development projects the professional support you need.

Our fleet capabilities

- Towing and stand-by operations
- Salvage and rescue operations
- Bulk freshwater and lube oil deliveries
- Deck cargo and spare delivery
- Emergency response services including medical evacuations
- Firefighting operations

We are committed to providing cost-efficient, professional and high quality services in full compliance with Health, Safety, Security and Environment (HSSE) practices.
