

GAC Thailand Logistics Services

**Delivering total supply chain & logistics
services with cost-effective solutions**

Since rapid economic growth took off in the mid-1980s, Thailand has emerged as one of Far East's fastest-growing countries. GAC entered the Thai market in 1992 when it established a local company to offer quality services with the unique combination of the Group's global reach and resources with local expertise and know-how.

Delivering your strategy.

GAC Thailand puts innovative thinking and smart use of advanced technology at the service of manufacturers, distributors and retailers.

Our logistics specialists draw on their experience and GAC's range of services to identify the best solution for your logistics needs. Particular emphasis is put on providing competitively-priced support to the fast moving consumer goods (FMCG), textiles, pharmaceuticals, automotive parts, electronics, entertainment and oil & gas sectors. Cost efficiency is further enhanced by the benefits gained from our centralised freight purchasing and strong relations with major air and sea carriers.

Diverse sectors

Whether delivering computer parts, taking care of the latest fashion, or bringing a world-class performer's entourage to town for their big show, we have the requisite experience, skills and resources.

24/7 customer support

With a dedicated team assigned to each account, we assure you of prompt attention

to all your needs. Whether it's a request for delivery updates, cargo movement, or emergency support, we are there for you round-the-clock.

State-of-the-art multi-user distribution facility

Our fully-fledged logistics facility in the Amata Nakorn Industrial Estate covers 20,000 sqm and offers 32,000 racking positions supported by end-to-end supply chain management solutions.

We also operate a modern warehousing facility in Bang Pa In.

High tech advantage

Our advanced IT system gives you total visibility of your cargo's progress at every step of the supply chain, and enables us to generate management reports on statistics, inventory flow and key performance indicators.
