

GAC Thailand Project Logistics

The muscle to move any project cargo globally

With GAC Group's global network and solid track record in developing and executing complex project logistics solutions, we are the partner to whom you can entrust your load.

GAC has the skills, experience and the right equipment to ensure safe and timely delivery of your project cargo locally and globally.

Drawing on our shipping, logistics and marine expertise, GAC Thailand offers flexible total packages for any project cargo requirements in turnkey projects.

Delivering your strategy.

Let GAC Thailand do the heavy lifting for you

Our complete solutions include:

- Surveys & feasibility studies
- Multi-modal transport
- Full / part charter party
- Towage & barge operations
- Special equipment transport
- Operations supervision
- Stevedoring & terminal services
- Forward planning & cargo handling method statements
- Technical consulting
- Track & trace

Total logistics capabilities

From single domestic delivery to complex, multi-shipment and multi-modal jobs, GAC Thailand can manage projects of any size.

Beyond standard freight forwarding, our complete transportation solutions start from detailed planning through to cost-efficient final delivery with strict Health, Safety, Security & Environment (HSSE) compliance. All operations are planned and executed with strong focus on minimising risks and costs, optimising resources and meeting deadlines.

Complete package

With a dedicated team assigned to each account, we assure you of meticulous handling at every step of the process and prompt attention to all your needs.

Established track record

From moving rigging equipment from Songkhla, Thailand to Singapore, to transporting conveyor belts from Thailand to a power plant in Laos, we have established a track record in the heavy lifting arena. Today, our clients come from diverse sectors such as oil & gas, pulp & paper, mining, automotive, construction, power & energy, railway equipment and ship equipment & supplies.
