

GAC Denmark Dry Docking Support

**Round-the-clock services for vessels calling at shipyards
in Denmark**

GAC Denmark offers a full range of dry docking support services, from crew and spares handling to arranging stores, accommodation and visas. Ship owners and management companies can also tap into the expertise of GAC Marine Logistics to manage the supply chain of their routine maintenance spares and equipment.

Our experienced staff can be based at the owner's site office to manage inventory and liaise with owners' representatives, surveyors, suppliers and technicians, etc. We take care of the administration and logistics, allowing Masters, Chief Engineers and Superintendents to focus on the drydock jobs with full control of all spares and stores entering or leaving the vessel.

Delivering your strategy.

Count on GAC Denmark for all your dry docking needs

Our strong expertise in dry docking support is built on our decades of experience and excellent working relationships with the dry docks and other repair facilities at Danish shipyards. In addition to handling all types of vessels calling for repairs such as tankers, LNG/LPG vessels, container ships, Ro-Ro, Navy vessels and oil rigs, we can also assist vessels undergoing conversions.

Prior to the vessel's departure, we can also supply bunkers through GAC Bunker Fuels, the only ISO 9001:2015, ISO 14001:2015 and 45001:2018 certified bunker company in the industry.
