

GAC Norway Customs Services

Fast, efficient clearance of oil and gas products

Whether it's crude, processed product or gas, there will always be a need for Customs clearance when transporting oil & gas derivatives to or from Norway. Our first-rate consulting services give you the support you need to obtain licences for speedy Customs clearance.

Delivering your strategy.

Your trusted partner

Oil & Gas Customs clearance processes in Norway meet the requirements of both Norwegian regulations and formalities to be granted for eventual preferential tax treatment related to various trade agreements.

Specialist support

Import and export declarations, certification of origin, EUR 1 certificates or preferential statements are all typical requirements to these cargo types.

GAC Norway's Customs department has the in-depth experience and local knowledge to

assist with clearance procedures for energy products whether in bulk or delivered by pipelines.

The GAC advantage

- Dedicated and experienced team
- Round-the-clock operations
- High standards of conduct
- Quality assured
- Source of reliable market intelligence
- Efficient supply chain
- Cost-effective solutions

We are Achilles JQS and ISO 9001:2015 certified.
