

GAC Norway Shipping & Logistics Services

Complete range of services nationwide

If you need a strategic partner that puts your business first, look no further than GAC Norway. We provide integrated services and quality support at competitive rates, ensuring that your bottom line is protected.

Delivering your strategy.

Whether you're an oil company, cruise operator, or moving wet or dry cargo, we put the muscle of our global resources and local expertise at your disposal.

GAC Norway was formed in May 2007 when the GAC Group acquired an 80% stake in the agency Ole R. Olsen, which has been serving vessels calling at the country's ports and terminals since 1835.

We are the leading agency for cruise, tanker and offshore vessels in Norway and also provide professional logistics services, with particular focus on the energy industry.

From our head office in Bergen and strategically located branches, we cover all Norwegian ports and terminals.

Propel your business

Every year, GAC Norway handles about 2,800 port calls. We provide offshore support, marine equipment, ship broking of supply vessels, mooring/unmooring services and marine surveys, as well as a range of support services for the shipping industry such as bunker fuel supplies, weather routing and training.

On track for growth

We have what it takes to deliver your goods, through our efficient and professional logistics services.

Particular focus is placed on project logistics for the energy sector and ship spares logistics for the maritime industry.

Powering your progress

Our strong team of experts draws on their rich experience to support offshore oil & gas exploration and production activities at all major offshore ports and oil & gas terminals in Norway.

From project management, port clearance and NOx reporting to crew changes, bunker fuels and warehousing, we have the local industry knowledge and global expertise to deliver your results.
