

GAC Marine Services

Full offshore support across the Arabian Gulf and West Coast of India

We serve industries where the projects are rarely small-scale or short-term. As your partner of choice, GAC Marine have the resources, expertise and long-term vision you can trust to give complex offshore development projects professional support.

Delivering your strategy.

We continuously strive to develop and improve our services. Our fleet includes anchor handling tugs, tow tugs, supply vessels, crew transfer boats and flat top cargo barges.

By your side

You need a partner with the expertise and experience you can trust to give complex offshore development projects professional support. A partner like GAC Marine.

Our strategic location in the United Arab Emirates enable us to better serve your onshore and offshore project needs.

Moving forward

Suited for a variety of tasks ranging from general towage and barge handling in support of dredging operations, our tugs serve as monitor or guard vessels. Our fleet includes modern tugs with up to 8,000 BHP and barges of up to 8,000 DWT.

Our barges range in size from 150 to 280 feet, are approved for ballasting and have the strength required for heavy lift Ro-Ro operations. They can also be used to carry coated pipes, jackets, topsides and other materials for offshore construction.

GAC Marine's group of vessels is classified with the International Association of Classification Societies members to ensure safer, cleaning shipping.

Sustainable solutions

Our understanding of the highly specialised and time-sensitive nature of the oil & gas sector enables us to tailor solutions to your business needs in a structured, flexible way.

GAC Marine's tug and barge services has grown bigger and more sophisticated to serve the energy sector.

Committed to quality

We are certified in accordance with International Safety Management (ISM) Code. We also have ISO 9001, ISO 1400, OHSAS 18801, ISPS Code and MLC certification and are compliant with international safety standards.

Integrated services

- Anchor handling
- Barge transportation
- Crew changes & cargo supplies
- Guard / escort vessel services
- Offshore tanker berthing
- Pipe & offshore structure transportation
- Drilling supply
- Rig moving services

Skills to ensure every project - big or small - goes smoothly

Fully equipped and flexible

Charterers can enjoy the benefits of hiring reliable vessels, thanks to our own maintenance yards. Our in-house capacity and fully equipped marine base give us the flexibility to respond to customer demands for equipment modification to meet special requirements in an efficient and cost-effective way. This us to deliver short turn-around times for class surveys, modifications or repairs / maintenance.

Our in-house built anchor handling tugs are used to support crane and pipe laying

barges, rig moves and Floating, Storage & Offload (FSO) vessels.

A policy of preventative rather than corrective maintenance is key to providing charterers with trouble-free operation and minimum downtime.

All our operations are in line with the GAC Group's Compliance & Ethics and Health, Safety, Security & Environment (HSSE) policies.

Expert assistance for all your marine needs
