

Air Freight Solution for Leading Commercial Vehicles Manufacturer

A case study of GAC's door-to-door automotive logistics services from Europe to multiple assembly plants in China

One of the world's largest OEM bus and truck manufacturers needs to transport engines, spare and other vehicle components from Europe to their assembly plants across multiple cities in China every month.

Guaranteed delivery in pandemic times

They need a logistics partner who can provide a dependable air freight solution at competitive rates on a long-term basis. Before COVID-19, securing space at good rates was already a challenge, the situation is now exacerbated by the crisis which results in an unstable and fluctuating air freight market.

Delivering your strategy.

Delivering a reliable and competitive air freight solution

Customised response to the customer's challenge comes with guaranteed space on a long-term basis

Tailored solution

GAC China is able to offer a reliable and competitive long-term air freight solution, even amid the disruption and challenges presented by the COVID-19 pandemic.

Its automotive logistics experts developed a customised package with a Chinese air charter company which guaranteed space, competitive rates, reliable services and long-term agreements to meet the customer's needs.

Scope of work

Since December 2020, GAC has been taking care of the time critical air freight shipments for the leading manufacturer of vans, trucks, buses / coaches and diesel & gas engines every month.

Our automotive logistics specialists handle the air freight shipments from manufacturing

plants in Europe to factories in Shanghai, Taicang, Beijing and Tianjin.

From Germany, Poland and Austria, the cargo will be loaded, transported to and handled at the airport of departure, and packaging for air freight carriage in line with IATA regulations. GAC also handles all the necessary documentation. Upon arrival in China, GAC's local automotive logistics professionals will take care of customs clearance and delivery to final destination.

The GAC advantage

- Long-term agreement
- Guaranteed space
- Reliable service
- Competitive rates
- Extensive operational expertise and experience
- Passionate logistics experts

GAC's nomination to handle the time critical air freight business is testament to the "can do" spirit of our people, even at a time when the air freight sector is facing unprecedented challenges.
