Vision

To provide leadership and innovation in global business and community life by delivering a flexible portfolio of services built on quality, safety, honesty, vigour and a commitment to long term business relationships.

Mission

GAC is a worldwide service provider dedicated to building long-term relationships with customers, staff and suppliers. We are committed to delivering integrated services to the Shipping, Logistics, Marine and related markets at the highest levels of quality and safety.

GAC Compliance & Ethics

GAC Compliance and Ethics comprises GAC policies which provide guidance on how we conduct our business and put our ethics and values into practice. Our approach is underpinned by the GAC Code of Ethics and GAC Spirit, and overseen by the GAC Group Compliance Team.

GAC staff must comply with the Group Compliance and Ethics policies, to provide the highest standards to everything we do. All staff receive relevant training through the GAC Compliance and Ethics Course offered by the GAC Corporate Academy (GCA).

Code of Ethics

The GAC Code of Ethics is more than just corporate window dressing. It is a guide for action, not just words. A true code of practice.

The GAC Code of Ethics sets out the basis of the GAC Group's relationship with customers, suppliers, staff and the law. At its core lies a determination to treat the Group's stakeholders honestly, fairly and with dignity. The GAC Code of Ethics is derived from the Group's operating values and practices and the GAC Spirit.

Health, Safety, Security and Environment

GAC's strong HSSE policy is based on the belief that good HSSE management is essential for the well being of our employees, families, customers, visitors and all other stakeholders in the Group's services. We believe that HSSE-related incidents can be prevented and their impact reduced through an effective HSSE Management System. The quality of our attitudes, actions, written documents and equipment reflects the level of our commitment to HSSE throughout the organisation.

Sustainability

"Adapt, innovate and reduce" is GAC's response to the sustainability challenges facing us all. GAC wants to do well, and to do good wherever we can to make the world better, safer, cleaner and greener.

That philosophy is at the heart of our commitment to sustainability, reflected in the GAC Spirit as well as our Group Ethics, Compliance, and Health, Safety, Security and Environment (HSSE) policies.

Our aim is to make real positive change in ourselves, while supporting and influencing change in others. Our goals are aligned with the UN Sustainable Development Goals (SDGs) and cover three main areas of impact, namely economic, environmental and social.
