THE ULTIMATE PORTS EXPERIENCE

The Ports of Walvis Bay and Lüderitz lies on the West Coast of Africa. The Namibian Ports Authority is a body corporate established by the Namibian Ports Authority Act, 1994 (Act 2 of 1994) as a state-owned enterprise. Namport's mandate is to exercise control and manage Namibia's ports, lighthouses and other navigational aids in Namibia and its territorial waters.

GEARED FOR GROWTH

Namport focuses on being the best performing seaports in Africa. Therefore, Namport continues to invest in port infrastructure to ensure Namibia is not only compliant with the International Ship and Port Facility Security code (ISPS), but is also geared towards opportunities for future growth.

In 2019, a new container terminal worth N\$4.2 billion was brought into operation. It provides infrastructure and deployment of ship-to-shore gantry cranes for the first time in Namibian port history, firmly establishing a competitive position in relation to other ports for the critical hinterland markets. This raises the handling capacity to 750 000 TEUs, which is double the previous 350 000 TEU's.

OUR SERVICES & THE INDUSTRIES WE SERVE

The Port of Walvis Bay oversees container imports, exports, and transshipments, along with bulk and breakbulk cargo for various industries, including petroleum, mining, construction, and fishing. Additionally, it caters to the tourism sector through a dedicated cruise liner berth and terminal.

The Port of Lüderitz oversees the export of mining commodities from the southern region of Namibia and the Northern Cape of South Africa. Additionally, it supports the local fishing industry and operates as a supply base for the oil and gas drilling campaigns.

TRADE ROUTES NAMPORT SERVES

Strategically located along the Namibian coastline, Walvis Bay provides direct access to principal shipping routes, making it a natural gateway for international trade. Its world-class infrastructure and equipment ensure reliable and safe cargo handling.

The favorable temperate weather conditions of the bay enable timely operations, thus facilitating Namibia's largest commercial port, the Port of Walvis Bay, to accommodate approximately 1,600 vessel calls annually, with a handling capacity of 10 million tons of cargo.

VISION:

To be the best performing seaports in Africa

MISSION:

To provide excellent port services to all seaborne trade, creating sustainable value for all our stakeholders.

The Code was introduced by the International Maritime Organisation (IMO), the overseer of the original SOLAS agreement, in the wake of fears of terrorist attacks on ships and ports after the September 11 terrorist attacks. The code was agreed at a meeting of the 108 signatories to the original convention in London in December 2002. The measures agreed under the code were brought into force on July 1, 2004. The code does not specify specific measures that each port and ship must take to ensure the safety of the facility against terrorism because of the many different types and sizes of these facilities. Instead it outlines "a standardised, consistent framework for evaluating risk, enabling governments to offset changes in threat with changes in vulnerability for ships and port facilities".
